

AMINO NRG™

REVOLUTION ULTIMATE AMINO+ENERGY

NEW!

L-LEUCINE, ACTIVSPHERE™ LEUCINE & PEPFORM® LEUCINE

A precise combination of three types of fast-and sustained-release leucine – the most anabolic amino acid for superior protein synthesis and muscle strength.

DUAL-PHASE CAFFEINE

A revolutionary combination of immediate- and sustained-release caffeine to enhance focus, and to boost energy and intensity.

ISOLEUCINE & VALINE

The remaining BCAAs in a combination designed to help support protein synthesis, muscle repair and lean muscle growth.

GLUTAMINE

The most abundant conditionally essential amino acid in your body. It helps support muscle protein synthesis.

BETAINE

Each serving delivers a precise 1.25g dose of betaine. Combined with L-glutamine, durian and taurine, these all contribute to the IntraVol Musclebuilding+ Matrix.

TAURINE

Featuring a 1g dose of taurine plus hovenia and durian in a never-before-seen combination.
