

HYDROXYCUT® SX-7® BLACK ONYX™

THE MOST HARDCORE WEIGHT MANAGEMENT & ULTIMATE SENSORY EXPERIENCE

CUTTING-EDGE INGREDIENTS:

■ **Salvia miltiorrhiza** – An herb with long-standing traditional use known to contain various phenolic acids such as danshensu and salvianolic acid B, as well as diterpene compounds such as cryptotanshinone. *Salvia* has been added to enhance the sensory experience.

■ **Theanine** – An amino acid that contributes to the unique sensory experience.

■ **Satsuma orange supplying beta-cryptoxanthin** – An ancient Japanese citrus fruit containing the unique active carotenoid compound beta-cryptoxanthin.

■ **Caffeine anhydrous** – Scientifically researched ingredient shown to enhance thermogenesis, increase energy and enhance mental focus.

■ **Robusta coffee bean extract** – Scientifically researched robusta coffee bean extract standardized for 45% chlorogenic acids has shown its ability to support weight management.

■ **Sambucus nigra** – An ancient herb trusted in traditional medicine for decades has been combined with caffeine for the ultimate sensory and energy experience.
